

NOVEMBER 2015

COMPATIBILITY GUIDE

COM-DEX is compatible with most Bluetooth mobile phones from a wide range of manufacturers. The list on the right names the specific mobile phone models that can be used.

- The COM-DEX is possible to pair with the mobile phone and you will be able to use several features.
- You can connect the COM-DEX to your smartphone and use different features, but music streaming will not work.

The dots on the right do not indicate the availability of the COM-DEX App.

COM-DEX App: Our new COM-DEX App provides convenient control of hearing aid volume, sound directions and program settings from users' smartphones.

COM-DEX App is optimized for iPhones using operating systems iOS 8 and iOS 9, and works with iPhone 4s and newer.

COM-DEX App is optimized for Android smartphones using operating systems Android 4.4 and newer.

Disclaimer: Widex cannot guarantee that all iOS and Android versions of the respective operating systems mentioned above will work with the COM-DEX App.

Acer	■ Liquid E3 ■ Liquid Gallant ■ Liquid Glow ■ Liquid Jade Z
Alcatel	■ OT Iold 3 ■ OT Scribe HD
